

OSIZ

Giving A Prodigious Future!

www.osiztechnologies.com

Who we are?

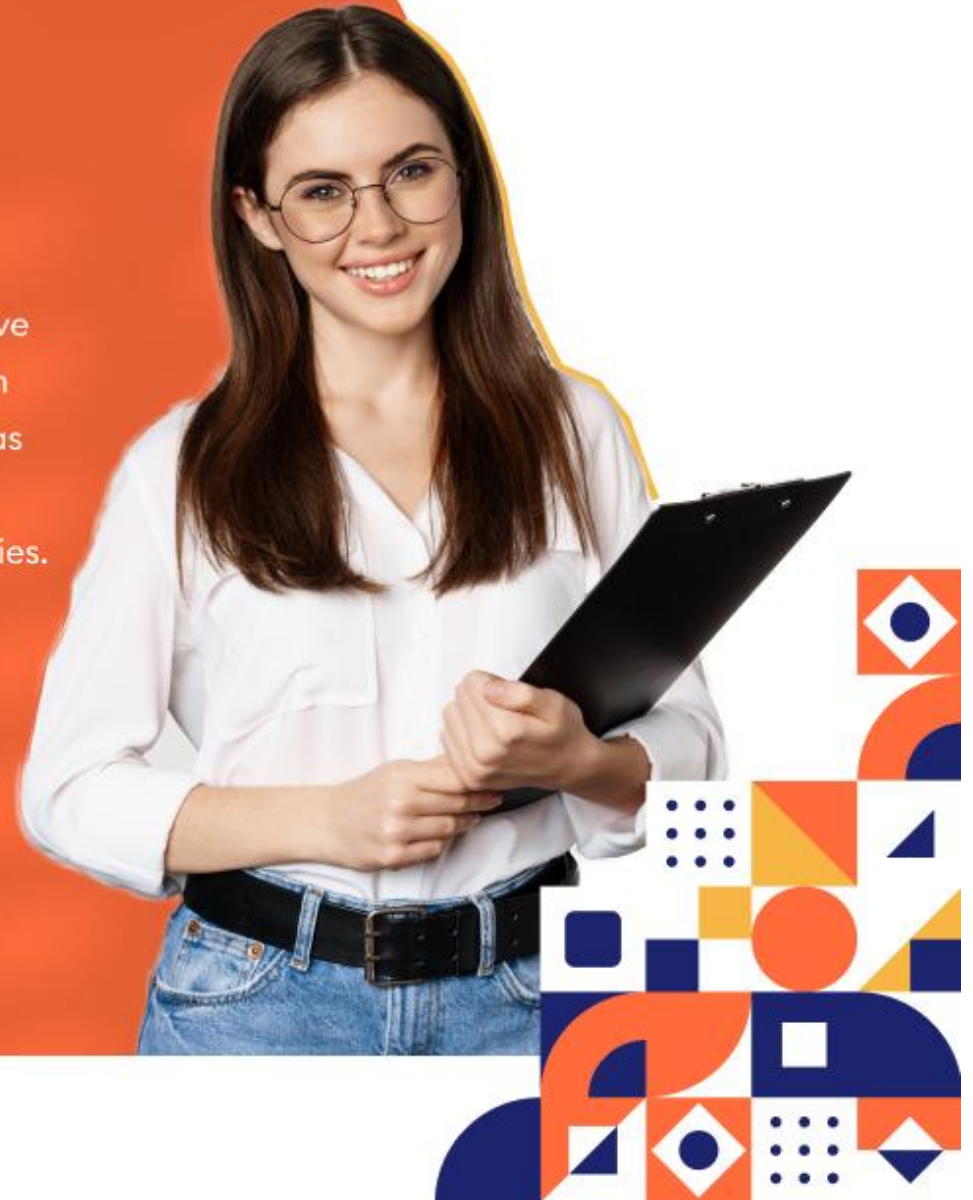

A Self-Exploration To Know Our True Essence

At Osiz, we are committed to assisting organizations by providing tailored development services based on their unique needs. Our dedicated team is equipped to handle projects of any requirement, covering all aspects and delivering effective solutions. Whether it's website development, software development, or mobile app development, we have the capabilities to support enterprises. With a focus on client satisfaction and timely product delivery, we have established ourselves as a leading Technology Development Company in the industry.

Career

At Osiz, we have been the driving force for countless career success stories. With our wide range of career options, we have transformed the lives of individuals, while also igniting growth and success for employers. Our commitment to excellence has established us as a trusted partner in the job market by connecting talented professionals with rewarding opportunities. Through our innovative approach, we have connected talented professionals with opportunities that align with their passions and aspirations.

Our Company Values

Our Vision

Our mission is to create "State of the Art" websites that enable businesses to flourish in the highly competitive digital landscape. We recognize the importance of brand promotion and development, and our goal is to provide tailored solutions that attract and engage future customers, driving business growth.

Our Mission

Our vision is to be the leading IT service provider in India, delivering comprehensive business solutions powered by "Leading Edge Technology." We strive to exceed client expectations and drive their success in the ever-evolving digital landscape.

Our Core Values

At Osiz, customer satisfaction and happiness are our top priorities, surpassing business profit. We continuously strive to lead in future technologies and innovations, delivering unparalleled business solutions that exceed our clients' expectations.

Founders

M. Duraipandi

M. Duraipandi's experience spans corporate establishment, business performance, monitoring operations, governance, mergers & acquisitions, talent/people management, and strategy.

Durai is highly skilled and experienced in identifying best practices and developing strategies to drive organizational accountability and efficiency.

S. Meenambika

S. Meenambika is responsible for the operational leadership of manned guarding operations. She has over 25 years of strategic industrial management experience with in-depth expertise in management, organizational resilience, finance, and business management.

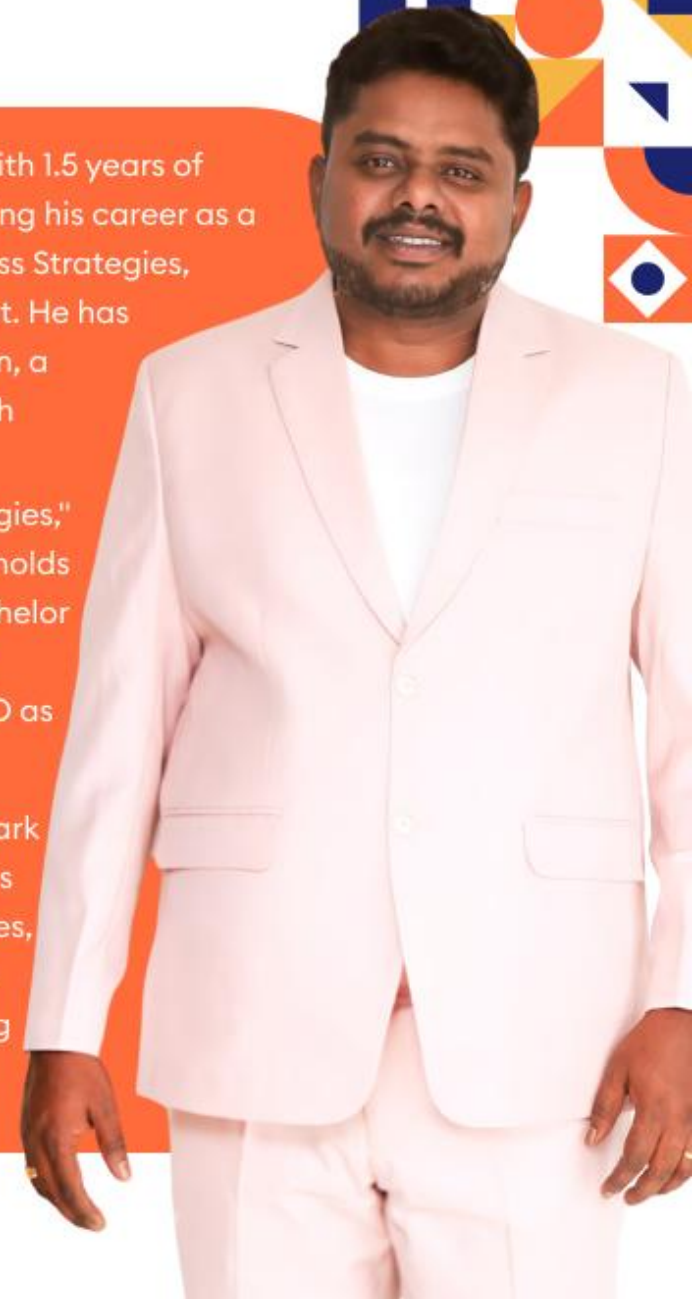

She leads one of the company's largest regions and directs many of the company's procedural best practices and advancements on a national scale.

CEO Profile

Thangapandi Durai is the **Co-Founder and CEO of Osiz Technologies Pvt LTD**, with 1.5 years of experience in Software Development and 14 years as the Director of Osiz. Starting his career as a Software Developer and having 15+ years of experience in Technologies, Business Strategies, Marketing, and Sales, Thangapandi is a Simple and Practical Business Strategist. He has co-founded and is the CEO of Koinpark Indian Crypto Exchange and Blockchain, a technology-based platform aimed at improving the Blockchain Eco-System with Metaverse.

In January 2022, he resigned from his position as the Director of "Osiz Technologies," and Duraipandi took charge as the Director. Born in Tamil Nadu, Thangapandi holds a Master of Business Administration degree from Kamaraj University and a Bachelor of Technology degree in Electronics & Instrumentation Engineering from KCET, Anna University. Thangapandi topped the IT services ranking for the role of CEO as a brand custodian and steward of long-term shareholder value.

Previously, Thangapandi was a member of the Group Executive Board at Koinpark Crypto Exchange, where he held several leadership positions for 2 years. He was responsible for overseeing a business cluster comprising the Application Services, Cloud Infrastructure Services, and Technology & Engineering Services Division. His responsibilities included strategy and execution for these businesses, setting direction, and enabling rapid client adoption.

President Profile

Kiruthiga S is the **Co-Founder and Director of Osiz Technologies P LTD**. She has co-founded and is the CFO of Koinpark Indian Crypto Exchange and Blockchain, a technology-based platform to improve Blockchain Eco-System with Metaverse. In May 2022, She resigned from her position as the Directorship of "Osiz Technologies" and Meenambika took charge of the Directorship.

Born in Tamilnadu, Kiruthiga holds a Bachelor of Technology degree in Computer Science Engineering from the Raja College, Anna University.

Kiruthiga topped the Business Development services ranking for the role of Managing Director.

Earlier, she was a member of the Group Executive Board at Dev Construction and Dev Manufacturing, where she held several management and leadership positions for 6 years. She was responsible for overseeing business administration and management services. She was responsible for the strategy and execution of these businesses - setting direction and enabling rapid client adoption.

With a solid foundation of 2 years in Business Development and over 12 years of experience in Leadership, Kiruthiga has honed her skills in driving growth and guiding teams toward success. Her strategic vision, analytical mindset, and execution-oriented approach have been instrumental in delivering exceptional results.

Our Milestone

The infographic features a central vertical timeline with orange dots connected by a thin line. The timeline is set against a background with stylized clouds and a jagged orange mountain-like shape at the bottom. Each year is highlighted with a red underline and a corresponding cloud icon above it.

2011

Within two years, the team expanded to 25 employees and established operations at the PTN Complex in Thirumangalam.

2013

In 2013, Osiz gained recognition for its web and mobile app solutions, building strong client relationships under Mr. Duraipandi's leadership.

2018

In 2018, Osiz experienced significant growth, becoming a world-class IT industry leader with over 300 employees.

2009

M. Duraipandi founded Osiz, a software development company, in 2009 in Madurai, India. Starting with a team of 7 employees, they operated from a residential setting.

2012

By 2012, the team grew to 40 employees and shifted operations to the Vincent Complex in Teppakulam, Madurai.

2015

Over six years, Osiz attracted numerous clients, leading to the establishment of corporate headquarters in Thanakkankulam, Madurai, in 2015.

2019

In 2019, Osiz achieved exponential growth, formed partnerships, and prioritized employee satisfaction, solidifying its leadership in IT and Metaverse development.

2020

After 13 years of continuous journey, Osiz remains at the forefront of innovation, upholding quality, integrity, and timely delivery.

2021

Even in 2021, Osiz maintained a strong client base with successful projects and advancements across various technologies, making its mark in multiple domains.

2022

Osiz maintains a diverse client base globally, delivering tailored blockchain solutions to startups and enterprises.

2023

Osiz leads in blockchain solutions within gaming and the metaverse, integrating AI services to revolutionize operations.

2024

Our dedication to innovation, positioned us as leaders in AI development services, driving technological excellence. We have launched Osiz Labs, a training center for both IT and non-IT students, showcasing their commitment to nurturing talents.

We work with

Startups

For startup ventures, we lay the groundwork, execute their concepts, turn them into reality, and nurture their growth toward becoming successful enterprises.

Enterprise

To drive the growth and transformation of the enterprise, our objective is to redefine its business model and elevate it to the status of a premier organization.

Agencies

We leverage the diversity of ideas from agencies to achieve their goals through our cutting-edge solutions, thereby advancing their business profiles to the next level.

MNC Projects

We collaborate with MNC agencies, capitalizing on their diverse ideas, to deliver cutting-edge solutions that propel their business profiles to the next level and help them achieve their goals.

Business Model of **Osiz**

Time & Meterial Model

Our flexible Time & Material model suits clients who require adaptability throughout the project lifecycle. With this engagement model, clients are billed based on hourly rates. This allows for greater flexibility in engagement, as clients can adjust the scope of work and allocate resources based on evolving project requirements.

Fixed Cost Model

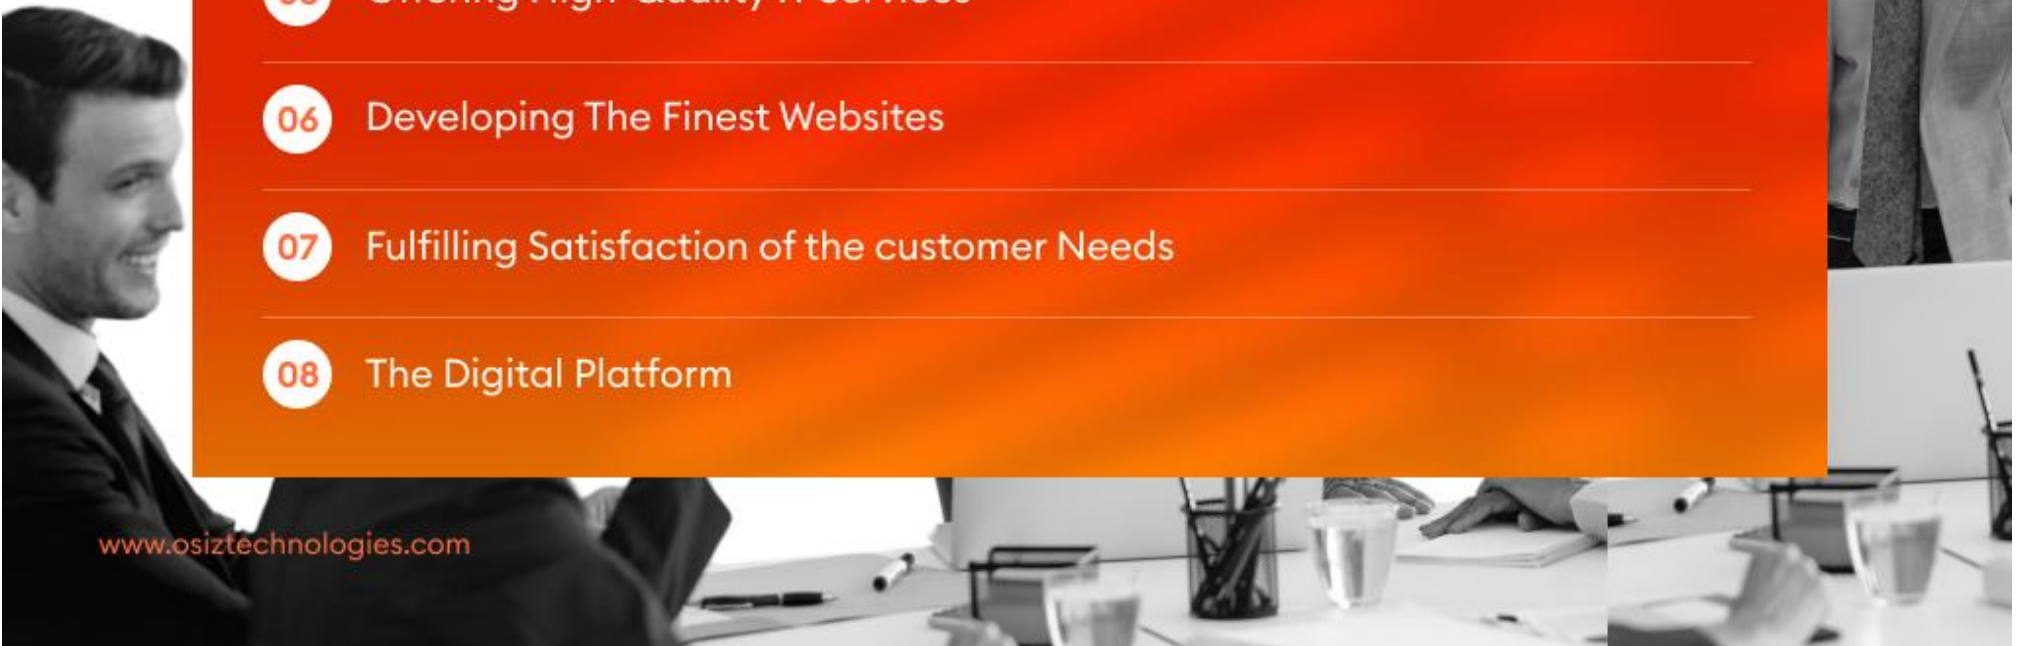

This streamlined model is ideal for clients who prefer a predetermined price for their projects. With pre-negotiated quotations and targeted time-frames, we ensure a hassle-free process and efficient outcomes.

Dedicated Hiring Model

Our Dedicated Hiring model offers clients the advantage of exclusive in-house offshore teams. With cost-effective flexibility and optimal resource utilization, clients gain access to skilled professionals dedicated to their specific project needs.

Data Analytics

Our experts leverage data analytics to extract valuable insights from large volumes of data, driving informed decision-making. Our cutting-edge data analytics services encompass a wide range of tools and techniques. We summarize and visualize historical data through descriptive analytics, providing a clear understanding of past trends and patterns. With diagnostic analytics, we delve deeper into identifying the root causes of specific outcomes or events.

www.osiztechnologies.com

Predictive analytics enables the forecasting of future trends and outcomes using statistical models and machine learning algorithms. We take data analysis a step further with prescriptive analytics, recommending optimal actions based on our findings. We extract valuable insights from unstructured text data through text analytics and analyze social media data to understand customer sentiment and behavior.

Game Development

Our game development services are highly regarded due to their ability to create innovative and immersive gaming experiences. We specialize in a variety of game development areas, including metaverse games, blockchain games, NFT gaming platforms, play-to-earn games, and move-to-earn games. Our team is deeply committed to utilizing the latest technologies and industry trends to deliver captivating and groundbreaking gaming experiences that resonate with today's audiences.

Leveraging the potential of blockchain, and other emerging technologies, our game development services are crafted to captivate and inspire players. We deliver gaming experiences that not only entertain but also leave a profound and lasting impact on players, evoking a sense of awe and exhilaration that extends far beyond the confines of the game itself.

Metaverse Development

We specialize in crafting immersive virtual experiences with a deep understanding of the latest technologies for a seamless and intuitive user experiences. We offer a comprehensive range of Metaverse development services from creating immersive Metaverse games and NFT marketplaces to developing virtual showrooms, event platforms, and virtual malls.

Our expertise also extends to Metaverse social media platforms, real estate development, avatar creation, 3D space design, launchpad development, business ideas, and virtual land development. Additionally, we integrate artificial intelligence, blockchain, and virtual reality technologies into our metaverse projects to be at the forefront of innovation.

www.osiztechnologies.com

Cyber security Development

Cybersecurity development confine a range of measures aimed at protecting digital ecosystems from evolving cyber threats.

Our cyber security services involve the implementation of advanced technologies, strategies, and protocols to safeguard sensitive data and systems. Within the realm of cybersecurity development, we provide services like vulnerability assessment and penetration testing (VAPT), security incident response, security architecture design and implementation, threat intelligence, security awareness training, network security, application security, cloud security, data security, identity and access management (IAM), security auditing and compliance, security consulting and advisory services, security operations center (SOC) services, endpoint security, and mobile security.

We help businesses build a robust cybersecurity infrastructure to mitigate risks and protect critical assets from potential cyber threats with our avant services.

www.osiztechnologies.com

Cloud Services

Cloud services are our expertise, as we specialize in delivering computing resources, such as servers, storage, databases, networking, and software, over the internet. Our cloud services enable organizations to access and utilize these resources on-demand, without the need for physical infrastructure or maintenance. We provide Infrastructure as a Service (IaaS), which allows our clients to access virtualized computing resources like virtual machines, storage, and networks.

Our Platform as a Service (PaaS) empowers developers to build, deploy, and manage applications seamlessly without worrying about infrastructure management. Our Software as a Service (SaaS) offers ready-to-use software applications hosted by our cloud platform. We extend our services to Database as a Service (DBaaS) and Security as a Service (SECaaS). Our tailored solutions enable our clients to leverage the flexibility, scalability, and cost-efficiency of cloud computing while focusing on their core business goals.

www.osiztechnologies.com

Banking Software

We offer cutting-edge banking software solutions that cater to the unique needs of financial institutions. With our expertise and commitment to excellence, we provide a comprehensive suite of services to help banks streamline their operations and deliver exceptional customer experiences.

Our banking software is designed to address various critical aspects of banking, including account management, transaction processing, loan management, compliance, and reporting. Our software provides powerful reporting and analytics capabilities, enabling banks to gain valuable insights, monitor performance, and make data-driven decisions. With our expertise and innovative technology, we deliver reliable, scalable, and secure banking software solutions with operational efficiency and enhanced customer satisfaction.

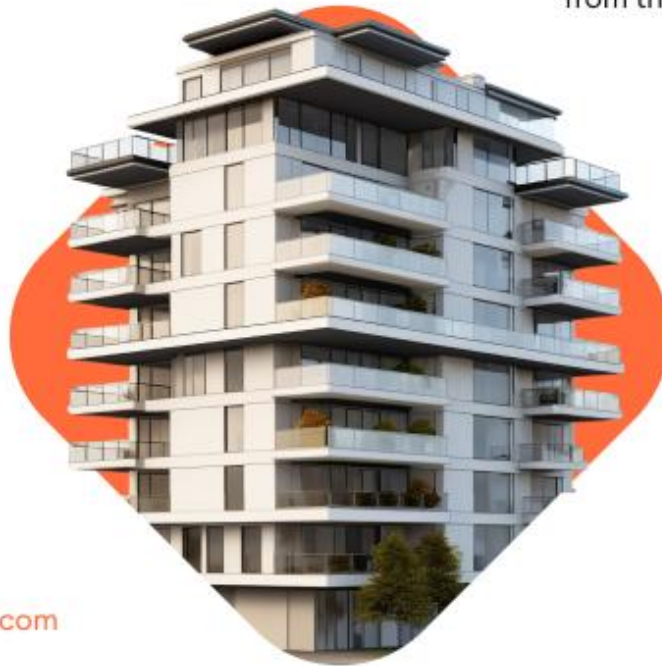

www.osiztechnologies.com

Real Estate Website Development

We provide exceptional real estate website development services that authorize real estate professionals to effectively showcase their listings and attract potential buyers and sellers. With our expertise and next-gen technology, we create visually stunning and user-friendly websites that are tailored to the unique needs of the real estate industry.

Our comprehensive services include custom design and branding, intuitive property search features, responsive layouts for seamless viewing on any device, integration with MLS and IDX systems, lead capture forms, and advanced mapping functionalities. We also optimize websites for search engines to ensure maximum visibility and drive organic traffic. From property listings and search functionality to interactive maps and virtual tours, our websites offer a comprehensive suite of features that will set you apart from the competition.

www.osiztechnologies.com

Cryptocurrency Exchange Development

Our robust Cryptocurrency exchange development helps clients to create secure, efficient, and user-friendly platforms for the seamless trading of digital assets. We are experts in building advanced cryptocurrency exchange platforms that offer a wide range of features and functionalities.

Our comprehensive crypto exchange development services encompass Decentralized Exchanges (DEX) for peer-to-peer trading, Centralized Exchanges (CEX) for high-speed order matching, P2P and OTC exchange platforms, integrated cryptocurrency wallets, and mobile app development for your exchange.

We prioritize security in our exchange development, so we integrate industry-leading protocols and rigorous testing to safeguard user funds and data. With our first-rate services, we assist our clients in establishing a formidable presence in the cryptocurrency trading landscape.

Mobile App Development

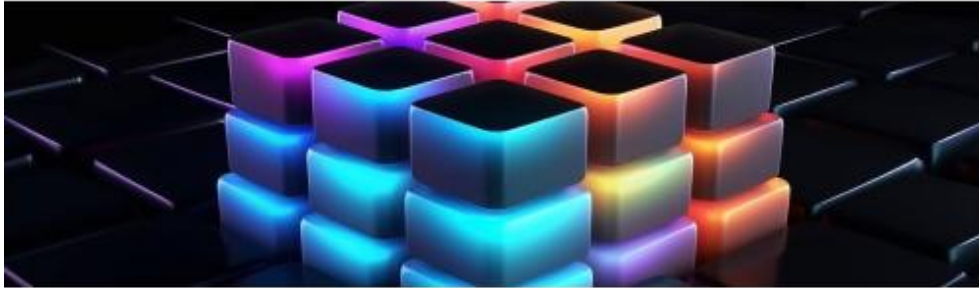

Leveraging the latest technologies, we create innovative and user-friendly applications to provide next-gen mobile app development services. Our team of skilled developers and designers works closely with clients to provide a fully functional and visually stunning mobile app. From UI/UX design to native and cross-platform development, we offer comprehensive services that cover every aspect of mobile app development. With a focus on delivering exceptional user experiences, we ensure that our apps are visually appealing, intuitive, and responsive.

www.osiztechnologies.com

Our expertise extends to backend development, integration services, and rigorous quality assurance testing to ensure optimal performance and functionality. We assist in creating an app for iOS, Android, or both, we have the knowledge and expertise to deliver a high-quality solution that meets your specific requirements.

DApp Development

We focus on creating decentralized applications (DApps) that capitalize on the potential of blockchain technology. With expertise in platforms like Tron, Ethereum, and EOS, we utilize cutting-edge technologies to build secure and innovative DApps. We employ languages such as Solidity and Vyper, along with frameworks like Web3.js, to ensure the development of robust and decentralized solutions.

Our services encompass a wide range of technical aspects in Dapp development. Our smart contract development allows the creation of self-executing contracts with predefined conditions. Token development allows clients to create their own digital assets on the blockchain, while wallet integration ensures seamless and secure transactions within the DApp ecosystem. Additionally, we provide specialized solutions such as decentralized finance (DeFi), NFT development, governance systems, interoperability solutions, and scalability optimization.

www.osiztechnologies.com

Supply chain Project

Our supply chain projects are designed to streamline operations and improve efficiency across various industries. We offer supply chain project solutions that focus on ensuring the availability of medical or commercial products through efficient inventory management, forecasting, and demand planning. Our specialized expertise extends to Blood Bank Resource Management, where we enable blood banks to streamline their operations, track inventory, and ensure the availability of life-saving blood products.

Our Salary Accounting Software simplifies payroll management by incorporating features such as EPF and other allowances calculations. Additionally, our Client/Contract Management system helps businesses effectively manage client relationships, track contract details, and streamline renewal processes. With our comprehensive suite of services, we aim to enhance operational efficiency, optimize resource allocation, and drive overall success for our clients.

Metapark 360 Ecosystem

Metapark

Metapark is the ultimate destination for your comprehensive digital landscape, tailored exclusively for community-driven users. It includes platforms like Koinpark, Parkchain, Parkscan, Parkwallet, Parklands, Parktools, and KPK Park.

Koinpark

Koinpark is a FIU Registered and trusted cryptocurrency exchange platform that allows users to trade Bitcoin, Ethereum, and 150+ cryptos in seconds on our ultra-secure global cryptocurrency exchange.

Parkland

Parkland is a revolutionary political metaverse platform that is a fusion of politics and the concept of the metaverse. Within Parklands, individuals can engage in a dynamic virtual world that encompasses all aspects of political life from local representatives, live counselors, chairmen, and higher positions like MLAs, MPs, CMs, and the esteemed role of PM.

Parkchain

Parkchain is a revolutionary blockchain platform designed to revolutionize finance by prioritizing innovation, security, and user experience. It is a decentralized and peer-to-peer blockchain ecosystem built with platform requisites featuring staking, explorer, wallet, tokens, tools, etc that is open and available to massive user access.

Testimonials

 GoodFirms

I've been working with OSIZ Technologies' for the last few months. They were so kind and gave me a very satisfying result. Technology was the best, and they responded in real time to meet my expectations. I'm very happy to recommend Osiz for web & software development.

Choi John
CTO At Braindude

They delivered our blockchain project, which has a measurable, tangible, and verified outcome. They communicated via Skype and Telegram. Their availability and responsiveness throughout the engagement impressed the client.

Gisella Josephine
Co-Founder, At BDC

"I have been working with Osiz Technologies with three months until now. I have been very satisfied with the outcome of the work produced by them. I have dealt with crypto exchange and trading website, an excellent professional and with the best customer service."

Nicky G Khun
Business Developer At SF Capital

"I have had the opportunity and pleasure to work with Osiz for a year and they are the best above the rest. Working with them is a bliss because of their flexibility, which is a plus especially on blockchain projects, which inevitably require constant tweaking and structural improvements."

Manid Chimhoga
Financial Advisor At Liberty Life

"The company has done good job despite not meeting with us physically. They developed, improved, protected our system until when they handed over everything. hey never complained but always created time out of their busy scheduled time table to come to our rescue whenever need arose."

Victor Odera
Director At ZaZu Mall Ltd

"Osiztechnologies Limited deployed the smart contracts and pushed the three games to the production server. Their team provided prompt responses and got the work done, though they improve their delivery time. Moreover, they facilitated a good workflow between both parties."

Kavita Pandey
CEO, Titan Corp Inc
